Your Comments: This plan doesn't go nearly far enough to clean up years and years of irresponsible polluting. I recommend you choose the most thorough plan for cleaning up our river and riverfront for the future generations to enjoy. Alternative H would be the best plan. Anything less seems like encouragement for big businesses to continue to poison our environment for profit. Regardless of cost, the businesses responsible for the contamination will pass that on to the consumer anyway. Please reconsider your decision and properly clean up our river.
